MASKING PANELS

- Drapery Masking panels allow a native 16:9 Fast-Fold® screen to be properly masked to a 4:3 format, in effect doubling the functionality of the screen.
- Masking panels simply attach with Velcro® at the top and snap into place at the bottom of the screen to snap studs along the black binding.
- The masking panels are inherently flame retardant.

Masking Panel attach with Velcro® to the top of frame and snaps to the bottom
